PROFILE

Cyber Security Analyst with hands-on experience in Vulnerability Assessment and Penetration Testing (VAPT), web application security testing, and network security analysis. Proficient in Burp Suite, Nmap, OWASP ZAP, SQLmap, and Linux-based security tools, with practical experience identifying, validating, and reporting web application vulnerabilities.

SKILLS

- **Tools & Technologies** : Burp Suite | OWASP ZAP | Nmap | Wireshark | SQLmap | Metasploit | Kali Linux | Nikto
- **Networking**: TCP/IP | OSI Model | Traffic Analysis | Service Enumeration
- **Programming & Web** : Python | Java | Bash | HTML | CSS | JavaScript (Security Perspective)
- **Cybersecurity & Concepts** : VAPT | OWASP Top 10 (Web) | Web Application Security Testing | Network Security & Enumeration

INTERNSHIP EXPERIENCE

Cyber Security Analyst, HebeSec Technologies Pvt Ltd Jun/2026 – Present | Karaikudi

- Conducting Vulnerability Assessment and Penetration Testing (VAPT) on web applications to identify and validate security vulnerabilities.
- Assisting in cybersecurity training content development while researching emerging vulnerabilities and security testing methodologies.

Vulnerability Assessment & Penetration Testing Intern Jun 2025 | Coimbatore
BCBUZZ Technology Pvt Ltd

- Identified and validated OWASP Top 10 vulnerabilities, including SQL Injection, XSS, and CSRF, in web applications.
- Performed CVE analysis and prepared vulnerability reports with risk ratings and remediation recommendations.

PROJECTS

Automated Linux-Based Cyber Defence System 2026 – Present

- Developed a Bash-based automated cyber defense system integrating ClamAV, UFW, Fail2Ban, and Suricata for real-time threat detection and firewall protection.
- Automated intrusion monitoring, log analysis, and email alerts using cron jobs to improve Linux system security.

CyberSentinel – Unified Network & Application Monitoring 2025 – 2026

- Built a Flask-based security dashboard integrated with Nmap for real-time network monitoring and port scanning.
- Implemented steganography detection and automated security analysis features using Python and Pillow.

CERTIFICATIONS

- **RED TEAM LEADERS** : Certified LLM Security Professional (CLLMSP) (2026)
- **Tagger Institute** : Practical Web Application Security and Testing (2025)
- **EC-Council** : SQL Injection Attacks (2025)

ACADEMIC CREDENTIALS

B.E. Computer Science and Engineering (Cyber Security) 2023 – 2027 | Coimbatore
Dr.N.G.P. Institute of Technology
